

INDEX

to volume 29
Jan-Dec 2001

The 2001 Annual Index lists articles by regular department, author, and subject. One- or two-letter codes after articles in the author and subject sections indicate the article type:

CQ: Clinical Quiz
CR: Case Report
CT: Clinical Techniques
EN: Editor's Notes
GE: Guest Editorial
NB: News Briefs
PA: Patient Adviser
R: Research
RV: Review article

Department

Clinical Techniques

Immediate steps for treating abrasions, Apr, p 69-70
Quick splint for acute boutonniere injuries, Aug, p 69-70
Identifying and injecting myofascial trigger points, Dec, p 49-50

Editor's Notes

Sportsmedicine changes guard, Jan, p 1
Maintaining professionalism in the athletic environment, Feb, p 3
'Poor sports' need good medicine, Mar, p 1
Sports medicine to the X-treme!, Apr, p 3
Taking a longer-term perspective on injuries, May, p 2
Are we losing the injury-prevention battle?, Jun, p 3
The journal's role in helping change medical practice, Jul, p 5
Sports medicine for all: introducing our new 'Practice Essentials' series, Aug, p 3
The dark side of kids' sports, Sep, p 2
Kids' sports: time to rethink PE, Nov, p 2
Can team physicians buy credibility?, Dec, p 3

News Briefs

Can exercise gadgets motivate patients? from pedometers to high-tech tools, Jan, p 15-18
Sports training and growth delay: is there a connection?, Feb, p 23-27
XFL raises unique sports medicine issues, Mar, p 13-14
New treatment for plantar fasciitis, Mar, p 16
AEDs gain foothold in sports medicine, Apr, p 11-19

Body fat testing: evaluating the options, May, p 13-16
Donating blood: what active people need to know, Jun, p 11-15
New formula estimates maximal heart rate: what are the clinical considerations?, Jul, p 13-14
How effective is computerized concussion management?, Aug, p 11-16
Portable 'echo' devices offer PPE possibilities, Sep, p 13-16
Ribose: a rising star on the supplement scene?, Oct, p 49-50
Terrorist attacks create sports medicine ripples, Nov, p 13-14
NHL group airs injury issues, Dec, p 11-12

Patient Adviser

Exercises in the treatment of low-back pain, Aug, p 67-68
What to do about AC joint injuries, Nov, p 57-58

Author

Adams BB: Red plaque on a high school wrestler, Feb, p 65-68, CQ
Alpert BS: see Salim MA, May, p 80-93
Amendola A: see Korkola M, Jun, p 35-50

Basler RSW: Immediate steps for treating abrasions, Apr, p 69-70, CT
Browning KH: Hip and pelvis injuries in runners: careful evaluation and tailored management, Jan, p 23-34, RV

Chew HF: see Evans NA, Sep, p 19-34

Delaney JS: How can hyperbaric oxygen contribute to treatment?, Mar, p 77-84, RV; (letter) Dec, p 34
Dorshimer G: see Hunt A, Nov, p 39-46
Dowling EA: How exercise affects lipid profiles in women: what to recommend for patients, Sep, p 45-52, RV
Drezner JA: Managing low-back pain: steps to optimize function and hasten return to activity, Aug, p 37-43, RV
Drezner JA: Exercises in the treatment of low-back pain, Aug, p 67-68, PA

Eakin CL: Knee arthrofibrosis: prevention and management of a potentially devastating condition, Mar, p 31-42, RV
Earnest CP: Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
Ebbing S: see Hartgens F, Jan, p 49-66
Estes NAM III: ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV
Evans NA: The natural history and tailored treatment of ACL injury, Sep, p 19-34, RV

Fair J: see Williams MS, Aug, p 69-70
Frankovich RJ: In-line skating injuries:

patterns and protective equipment use, Apr, p 57-62, R

Fritts HM: see LaPrade RF, May, p 53-59

Garcia MA: see Basler RSW, Apr, p 69-70
Gardner AW: Exercise training for patients with peripheral artery disease, Aug, p 25-35, RV
Glick ID: Psychiatric conditions in sports: diagnosis, treatment, and quality of life, Aug, p 45-55, RV
Gooding KS: see Basler RSW, Apr, p 69-70

Haight RR: Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV

Hartgens F: Androgenic-anabolic steroid-induced body changes in strength athletes, Jan, p 49-66, R

Herring SA: see Drezner JA, Aug, p 37-43

Herring SA: see Drezner JA, Aug, p 67-68

Hockenbury RT: Evaluation and treatment of ankle sprains: clinical recommendations for a positive outcome, Feb, p 57-64, RV

Homoud M: see Estes NAM III, Mar, p 67-74

Horsfall JL: see Glick ID, Aug, p 45-55

Hunt A: Isolated jejunal rupture after blunt trauma, Nov, p 39-46, CR

Johnson RJ: Acromioclavicular joint injuries: identifying and treating 'separated shoulder' and other conditions, Nov, p 31-35, RV

Johnson RJ: What to do about AC joint injuries, Nov, p 57-58, PA

Killingsworth RE: Community design and transportation policies: new ways to promote physical activity, Feb, p 31-34, GE

Kirby DP: see Mueller FO, Jul, p 41-48

Kissick J: see Hunt A, Nov, p 39-46

Konowalchuk BK: see LaPrade RF, May, p 53-59

Korkola M: Exercise-induced leg pain: sifting through a broad differential, Jun, p 35-50, RV

Kuipers H: see Hartgens F, Jan, p 49-66

LaPrade RF: Articular cartilage injuries of the knee: evaluation and treatment options, May, p 53-59, RV

Lattanzio CN: see Frankovich RJ, Apr, p 57-62

Lee IM: Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV

Leggit J: Facial lesions on a college basketball player, Dec, p 15-16, 26, CQ

Link MS: see Estes NAM III, Mar, p 67-74

Maquirriain J: Fractures in active patients with transplanted organs: treatment and exercise recommendations, Jan, p 37-40, 66, CR

Marshall SW: see Mueller FO, Jul, p 41-48

Matheson GO: Sportsmedicine changes guard, Jan, p 1, EN

Matheson GO: Maintaining professionalism

continued

in the athletic environment, Feb, p 3, EN
Matheson GO: 'Poor sports' need good medicine, Mar, p 1, EN
Matheson GO: Sports medicine to the Xtreme!, Apr, p 3, EN
Matheson GO: Taking a longer-term perspective on injuries, May, p 2, EN
Matheson GO: Are we losing the injury-prevention battle?, Jun, p 3, EN
Matheson GO: The journal's role in helping change medical practice, Jul, p 5, EN
Matheson GO: Sports medicine for all: introducing our new 'Practice Essentials' series, Aug, p 3, EN
Matheson GO: The dark side of kids' sports, Sep, p 2, EN
Matheson GO: Kids' sports: time to rethink PE, Nov, p 2, EN
Matheson GO: Can team physicians buy credibility?, Dec, p 3, EN
McShane JM: see Vitanzo PC Jr, Jul, p 33-38, 48
Mees PD: see Schnirring L, Mar, p 16

Williams MS: Quick splint for acute bunion injuries, Aug, p 69-70, CT
Wolfe CR: see Strikas RA, Oct, p 33-48

Zellweger R: see Rajan GP, Jun, p 65-71

Subject

Abdomen
 Isolated jejunal rupture after blunt trauma, Nov, p 39-46, CR
Abrasion
 Immediate steps for treating abrasions, Apr, p 69-70, CT
Acromioclavicular joint: see Shoulder
Adolescents
 Hip and pelvis injuries in runners: careful evaluation and tailored management, Jan, p 23-34, RV
 Kids' sports: time to rethink PE, Nov, p 2, EN
 Spondylolysis in active adolescents: expediting return to play, Dec, p 27-32, RV
 The dark side of kids' sports, Sep, p 2, EN
Advanced cardiac life support
 AEDs gain foothold in sports medicine, Apr, p 11-19, NB
AIDS: see HIV
Airway
 Airway management for the sports physician, part 1: basic techniques, Oct, p 23-29, RV
 Airway management for the sports physician, part 2: advanced techniques, Nov, p 15-28, RV
Alternative medicine
 How can hyperbaric oxygen contribute to treatment?, Mar, p 77-84, RV; (letter) Dec, p 34
Anabolic steroids
 Androgenic-anabolic steroid-induced body changes in strength athletes, Jan, p 49-66, R
 Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
Androgen
 Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
Androstenedione
 Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
Aneurysm
 Ascending thoracic aortic aneurysm in an elite runner, Jul, p 53-59, CR
 Disorders of vascular fragility: implications for active patients, Jun, p 53-60, RV
Ankle
 Evaluation and treatment of ankle sprains: clinical recommendations for a positive

continued

- outcome, Feb, p 57-64, RV
- Persistent ankle pain after a 'simple sprain', Apr, p 49-55, CQ
- Anterior cruciate ligament:** see Knee
- Antiviral drugs**
Metabolic syndromes associated with HIV: mitigating the side effects of drug therapy, Dec, p 19-26, RV
- Aortic rupture**
Ascending thoracic aortic aneurysm in an elite runner, Jul, p 53-59, CR
- Disorders of vascular fragility: implications for active patients, Jun, p 53-60, RV
- Apophysis:** see Adolescents, Children, anatomic site
- Arrhythmia:** see also specific diagnosis
AEDs gain foothold in sports medicine, Apr, p 11-19, NB
ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV
- Arthritis**
Acromioclavicular joint injuries: identifying and treating 'separated shoulder' and other conditions, Nov, p 31-35, RV
- Arthrofibrosis**
Knee arthrofibrosis: prevention and management of a potentially devastating condition, Mar, p 31-42, RV
- Articular cartilage**
Articular cartilage injuries of the knee: evaluation and treatment options, May, p 53-59, RV
- Atherosclerosis:** see Heart, Vascular conditions
- Atrial fibrillation**
ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV
- Automated external defibrillator:** see Defibrillator
- Back pain**
Exercises in the treatment of low-back pain, Aug, p 67-68, PA
Managing low-back pain: steps to optimize function and hasten return to activity, Aug, p 37-43, RV
Spondylolysis in active adolescents: expediting return to play, Dec, p 27-32, RV
- Barotrauma**
How can hyperbaric oxygen contribute to treatment?, Mar, p 77-84, RV; (letter) Dec, p 34
- Baseball**
Injuries in Little League Baseball from 1987 through 1996: implications for prevention, Jul, p 41-48, R
- Beta-blocker**
Sports and Marfan syndrome: awareness and early diagnosis can prevent sudden death, May, p 80-93, RV
- Blood donation**
Donating blood: what active people need to know, Jun, p 11-15, NB
- Body composition assessment**
Androgenic-anabolic steroid-induced body changes in strength athletes, Jan, p 49-66, R
- Body fat testing: evaluating the options, May, p 13-16, NB
- Breathing**
Airway management for the sports physician, part 1: basic techniques, Oct, p 23-29, RV
Airway management for the sports physician, part 2: advanced techniques, Nov, p 15-28, RV
- Burner**
Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV
- Cardiac arrest:** see Arrhythmia, Coronary artery disease
- Cardiac screening:** see Preparticipation exam
- Cardiovascular:** see Heart, Vascular conditions, specific diagnosis
- Carotid artery:** see Neck
- Cartilage transplant**
Articular cartilage injuries of the knee: evaluation and treatment options, May, p 53-59, RV
- Cervical spine** see Spine
- Chicken pox:** see Varicella
- Children**
Injuries in Little League Baseball from 1987 through 1996: implications for prevention, Jul, p 41-48, R
Kids' sports: time to rethink PE, Nov, p 2, EN
Sports training and growth delay: is there a connection?, Feb, p 23-27, NB
The dark side of kids' sports, Sep, p 2, EN
- Cholesterol**
How exercise affects lipid profiles in women: what to recommend for patients, Sep, p 45-52, RV
- Claudication**
Exercise training for patients with peripheral artery disease, Aug, p 25-35, RV
- Clavicle**
Acromioclavicular joint injuries: identifying and treating 'separated shoulder' and other conditions, Nov, p 31-35, RV
What to do about AC joint injuries, Nov, p 57-58, PA
- Community design**
Community design and transportation policies: new ways to promote physical activity, Feb, p 31-34, GE
- Compartment syndrome**
Exercise-induced leg pain: sifting through a broad differential, Jun, p 35-50, RV
- Computers**
How effective is computerized concussion management?, Aug, p 11-16, NB
- Concussion**
How effective is computerized concussion management?, Aug, p 11-16, NB
- Coronary artery disease**
How exercise affects lipid profiles in women: what to recommend for patients, Sep, p 45-52, RV
Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV
- Cricothyrotomy:** see Tracheotomy
- Death:** see Fatality
- Defibrillator**
AEDs gain foothold in sports medicine, Apr, p 11-19, NB
- Dehydroepiandrosterone**
Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
- Depression**
Psychiatric conditions in sports: diagnosis, treatment, and quality of life, Aug, p 45-55, RV
- Dermatitis**
Facial lesions on a college basketball player, Dec, p 15-16, 26, CQ
- Dermatology:** see Skin conditions
- Diabetes**
Fractures in active patients with transplanted organs: treatment and exercise recommendations, Jan, p 37-40, 66, CR
- Dislocation**
Acromioclavicular joint injuries: identifying and treating 'separated shoulder' and other conditions, Nov, p 31-35, RV
Quick splint for acute boutonniere injuries, Aug, p 69-70, CT
- Donating blood:** see Blood donation
- Drug policy**
Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
- Drugs:** see also specific drugs, Ergogenic drugs
Androgenic-anabolic steroid-induced body changes in strength athletes, Jan, p 49-66, R
Psychiatric conditions in sports: diagnosis, treatment, and quality of life, Aug, p 45-55, RV
- Echocardiography**
Portable 'echo' devices offer PPE possibilities, Sep, p 13-16, NB
- Ehlers-Danlos syndrome**
Disorders of vascular fragility: implications for active patients, Jun, p 53-60, RV
- Electrocardiography**
ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV
- Emergency response:** see also anatomic site, specific diagnosis
Airway management for the sports physician, part 1: basic techniques, Oct, p 23-29, RV
Airway management for the sports physician, part 2: advanced techniques, Nov, p 15-28, RV
- Equipment:** see Exercise equipment, Medical equipment
- Ergogenic drugs**
Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV
- Ergogenic nutrition**
Ribose: a rising star on the supplement scene?, Oct, p 49-50, NB
- Exercise effects**
ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV

continued

Exercise rehabilitation for cardiac patients: a beneficial but underused therapy, Jan, p 69-75, RV

How exercise affects lipid profiles in women: what to recommend for patients, Sep, p 45-52, RV

Overtraining: making a difficult diagnosis and implementing targeted treatment, May, p 35-50, RV

Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV

Sports training and growth delay: is there a connection?, Feb, p 23-27, NB

Exercise equipment
Can exercise gadgets motivate patients? from pedometers to high-tech tools, Jan, p 15-18, NB

In-line skating injuries: patterns and protective equipment use, Apr, p 57-62, R

Exercise intensity
Overtraining: making a difficult diagnosis and implementing targeted treatment, May, p 35-50, RV

Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV

Exercise motivation
Can exercise gadgets motivate patients? from pedometers to high-tech tools, Jan, p 15-18, NB

Exercise prescription
Exercise training for patients with peripheral artery disease, Aug, p 25-35, RV

How exercise affects lipid profiles in women: what to recommend for patients, Sep, p 45-52, RV

Sports and Marfan syndrome: awareness and early diagnosis can prevent sudden death, May, p 80-93, RV

Exercise risks
Cardiovascular risks of exercise: avoiding sudden death and myocardial infarction, Apr, p 33-47, RV

ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV

Sports and Marfan syndrome: awareness and early diagnosis can prevent sudden death, May, p 80-93, RV

Sports medicine to the X-tremel, Apr, p 3, EN

Taking a longer-term perspective on injuries, May, p 2, EN

Face
Facial lesions on a college basketball player, Dec, p 15-16, 26, CQ

Fat, body: see Weight control

Fatality
Cardiovascular risks of exercise: avoiding sudden death and myocardial infarction, Apr, p 33-47, RV

Finger: see Hand

Foot
New treatment for plantar fasciitis, Mar, p 16, NB

Football
Abnormal hand sensations after a football tackle, Oct, p 11-16, CR

Sideline evaluation of neck pain: when is it

time for transport?, Mar, p 45-62, RV

Syncope following neck trauma in a football player, Sep, p 37-41, CR

Fracture: see also Stress fracture

Acromioclavicular joint injuries: identifying and treating 'separated shoulder' and other conditions, Nov, p 31-35, RV

Fractures in active patients with transplanted organs: treatment and exercise recommendations, Jan, p 37-40, 66, CR

In-line skating injuries: patterns and protective equipment use, Apr, p 57-62, R

Gastrointestinal tract
Isolated jejunal rupture after blunt trauma, Nov, p 39-46, CR

Growth and development
Sports training and growth delay: is there a connection?, Feb, p 23-27, NB

Hand
Quick splint for acute boutonniere injuries, Aug, p 69-70, CT

Head
How effective is computerized concussion management?, Aug, p 11-16, NB

Heart: see also specific diagnosis
AEDs gain foothold in sports medicine, Apr, p 11-19, NB

Ascending thoracic aortic aneurysm in an elite runner, Jul, p 53-59, CR

Cardiovascular risks of exercise: avoiding sudden death and myocardial infarction, Apr, p 33-47, RV

Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV

Sports and Marfan syndrome: awareness and early diagnosis can prevent sudden death, May, p 80-93, RV

Heart rate
New formula estimates maximal heart rate: what are the clinical considerations?, Jul, p 13-14, NB

Heart rate monitor: see Exercise equipment

Heat injury
Exercise in the heat: a double threat to the immune system?, Jun, p 21-31, GE

Heel: see Foot

Helmet
Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV

Hepatitis
Immunizations: recommendations and resources for active patients, Oct, p 33-48, RV

Highly active antiretroviral therapy (HAART)
Metabolic syndromes associated with HIV: mitigating the side effects of drug therapy, Dec, p 19-26, RV

Hip
Hip and pelvis injuries in runners: careful evaluation and tailored management, Jan, p 23-34, RV

HIV
Metabolic syndromes associated with HIV: mitigating the side effects of drug therapy, Dec, p 19-26, RV

Hockey
Isolated jejunal rupture after blunt trauma, Nov, p 39-46, CR

NHL group airs injury issues, Dec, p 11-12, NB

Hormones
Dietary androgen 'supplements': separating substance from hype, May, p 63-79, RV

Human immunodeficiency virus: see HIV

Hyperbaric oxygen
How can hyperbaric oxygen contribute to treatment?, Mar, p 77-84, RV: (letter) Dec, p 34

Hyponatremia
The journal's role in helping change medical practice, Jul, p 5, EN

Immunity
Exercise in the heat: a double threat to the immune system?, Jun, p 21-31, GE

Immunizations: recommendations and resources for active patients, Oct, p 33-48, RV

In-line skating
In-line skating injuries: patterns and protective equipment use, Apr, p 57-62, R

Influenza
Immunizations: recommendations and resources for active patients, Oct, p 33-48, RV

Injection
Identifying and injecting myofascial trigger points, Dec, p 49-50, CT

Injury: see anatomic site, specific diagnosis, specific sport, Rehabilitation

Injury prevention: see also Prevention
Are we losing the injury-prevention battle?, Jun, p 3, EN

In-line skating injuries: patterns and protective equipment use, Apr, p 57-62, R

Injuries in Little League Baseball from 1987 through 1996: implications for prevention, Jul, p 41-48, R

NHL group airs injury issues, Dec, p 11-12, NB

Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV

Terrorist attacks create sports medicine ripples, Nov, p 13-14, NB

Injury statistics
In-line skating injuries: patterns and protective equipment use, Apr, p 57-62, R

Injuries in Little League Baseball from 1987 through 1996: implications for prevention, Jul, p 41-48, R

Intestine: see Gastrointestinal tract

Ischemia
How can hyperbaric oxygen contribute to treatment?, Mar, p 77-84, RV: (letter) Dec, p 34

Itching: see Pruritus

Jejunum: see Gastrointestinal tract

Joint: see specific joint

Portable 'echo' devices offer PPE possibilities, Sep, p 13-16, NB

Medical practice

Can team physicians buy credibility?, Dec, p 3, EN

Maintaining professionalism in the athletic environment, Feb, p 3, EN

The journal's role in helping change medical practice, Jul, p 5, EN

Meningococcal disease

Immunizations: recommendations and resources for active patients, Oct, p 33-48, RV

Men's health

Androgenic-anabolic steroid-induced body changes in strength athletes, Jan, p 49-66, R

Metabolic syndromes

Metabolic syndromes associated with HIV: mitigating the side effects of drug therapy, Dec, p 19-26, RV

Mortality: see Fatality

Myocardial infarction: see also Coronary artery disease

Cardiovascular risks of exercise: avoiding sudden death and myocardial infarction, Apr, p 33-47, RV

Myofascial pain syndrome

Identifying and injecting myofascial trigger points, Dec, p 49-50, CT

Neck

Abnormal hand sensations after a football tackle, Oct, p 11-16, CR

Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV

Syncope following neck trauma in a football player, Sep, p 37-41, CR

Needling: see Injection

Neurapraxia

Abnormal hand sensations after a football tackle, Oct, p 11-16, CR

Neurologic condition

Abnormal hand sensations after a football tackle, Oct, p 11-16, CR

Neuropathy

Exercise-induced leg pain: sifting through a broad differential, Jun, p 35-50, RV

Neuropsychological testing

How effective is computerized concussion management?, Aug, p 11-16, NB

Nutrition

Ribose: a rising star on the supplement scene?, Oct, p 49-50, NB

Older patients

Exercise rehabilitation for cardiac patients: a beneficial but underused therapy, Jan, p 69-75, RV

Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV

Osteitis pubis

Osteitis pubis: solving a perplexing problem, Jul, p 33-38, 48, RV

Osteoarthritis: see Arthritis

Osteochondral injury

Articular cartilage injuries of the knee: evaluation and treatment options, May, p 53-59, RV

Persistent ankle pain after a 'simple sprain', Apr, p 49-55, CQ

Osteochondroma

A soccer player with a sore toe: recognizing subungual osteochondromas, Jun, p 65-71, CR

Overtraining

Overtraining: making a difficult diagnosis and implementing targeted treatment, May, p 35-50, RV

Overuse injury

Hip and pelvis injuries in runners: careful evaluation and tailored management, Jan, p 23-34, RV

Overtraining: making a difficult diagnosis and implementing targeted treatment, May, p 35-50, RV

The dark side of kids' sports, Sep, p 2, EN

Pain: see also Rehabilitation, anatomic site
Managing low-back pain: steps to optimize function and hasten return to activity, Aug, p 37-43, RV

Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV

Pedometer: see Exercise equipment

Pelvis

Hip and pelvis injuries in runners: careful evaluation and tailored management, Jan, p 23-34, RV

Osteitis pubis: solving a perplexing problem, Jul, p 33-38, 48, RV

Periostitis

Exercise-induced leg pain: sifting through a broad differential, Jun, p 35-50, RV

Peripheral artery disease

Exercise training for patients with peripheral artery disease, Aug, p 25-35, RV

Physical education

Kids' sports: time to rethink PE, Nov, p 2, EN

Plantar fasciitis

New treatment for plantar fasciitis, Mar, p 16, NB

Pneumonia

Immunizations: recommendations and resources for active patients, Oct, p 33-48, RV

Preparticipation exam

ECG findings in active patients: differentiating the benign from the serious, Mar, p 67-74, RV

Portable 'echo' devices offer PPE possibilities, Sep, p 13-16, NB

Prevention: see also Injury prevention

Preventing coronary heart disease: the role of physical activity, Feb, p 37-52, RV

Sideline evaluation of neck pain: when is it time for transport?, Mar, p 45-62, RV

Taking a longer-term perspective on injuries, May, p 2, EN

Professionalism

Maintaining professionalism in the athletic environment, Feb, p 3, EN

Prohormone: see Hormones

Proximal interphalangeal joint: see Hand

Pruritus

Red plaque on a high school wrestler, Feb, p 65-68, CQ

Pseudofolliculitis

Facial lesions on a college basketball player, Dec, p 15-16, 26, CQ

Psychological issues

Overtraining: making a difficult diagnosis and implementing targeted treatment, May, p 35-50, RV

Psychiatric conditions in sports: diagnosis, treatment, and quality of life, Aug, p 45-55, RV

Public health

Community design and transportation policies: new ways to promote physical activity, Feb, p 31-34, GE

Terrorist attacks create sports medicine ripples, Nov, p 13-14, NB

Rehabilitation

Evaluation and treatment of ankle sprains: clinical recommendations for a positive outcome, Feb, p 57-64, RV

Exercise rehabilitation for cardiac patients: a beneficial but underused therapy, Jan,
