

INDEX

to volume 30

Jan-Dec 2002

The 2002 Annual Index lists articles by regular department, author, and subject. One- or two-letter codes after articles in the author and subject sections indicate the article type:

CQ: Clinical Quiz
CR: Case Report
CT: Clinical Techniques
EN: Editor's Notes
GE: Guest Editorial
NB: News Briefs
PA: Patient Adviser
PS: Position Statement
R: Research
RV: Review article

Department

Clinical Techniques

Rehabilitating ankle sprains, Aug, p 48-50

Editor's Notes

How are you investing your time?, Jan, p 7
Fitness and Olympic medicine for all, Feb, p 3
Orthopedics vs primary care: time for a cease-fire, Apr, p 3
First, ask no harmful questions, May, p 7
A little 'sports' medicine miracle, Jun, p 2
Musculoskeletal knowledge: how do you stack up?, Aug, p 2
Is it OK to be a fan and a team physician?, Sep, p 2
Feeling connected? Or just plain wired?, Oct, p 5
The night sky has dimmed: sports medicine loses a star physician and friend, Nov, p 2
Diversify your primary care practice, Dec, p 2

News Briefs

IOC asks athletes for asthma proof: request raises complex issues, Jan, p 15-16
Olympic medical plan incorporates business and technology updates, Feb, p 15-16
Bike safety future takes shape, Apr, p 4, 7, 50
New for marathon medical management: a post-race clinic, May, p 48-52
Pole vault deaths spur safety concerns, Jun, p 11-14

Brain injury in soccer: new reports highlight unresolved issues, Jul, p 2-6
New ACOG recommendations encourage exercise in pregnancy, Aug, p 9-10
Screening athletes for low iron: questions surface about ferritin, Sep, p 5-6
Pet project: can animals influence lifestyle changes?, Oct, p 13-14
What's behind the women-only fitness center boom?, Nov, p 15-16
Soda pop: an athlete's friend or foe?, Nov, p 17
Wrestling rules pin harmful weight cutting: fairness, validation concerns color debate, Dec, p 7-9

Patient Adviser

Exercising after you have your baby, Feb, p 38
Banking on strong bones for life: do you need calcium supplements?, Mar, p 39-40
Healing heel pain: help for plantar fasciitis, Jul, p 27-28; (letter) Dec, p 14
Coping with upper respiratory infections, Sep, p 49-50
When to return to play after an ankle sprain, Dec, p 39-40

Yesalis CE: see Bahrke MS, Nov, p 51-53

Subject

ACE inhibitors

Exercise in treating hypertension: tailoring therapies for active patients, Mar, p 11-23, 50, RV

Adolescents

Charcot-Marie-Tooth disease in a high school tennis player, Oct, p 47-52, CR

Does training affect growth? answers to common questions, Oct, p 21-29, RV; (correction) Dec, p 15

Hypertension in a young golfer, Jun, p 21-24, 36, CR

Aging: see Older patients

Amenorrhea: see Menstrual dysfunction

Anemia

Screening athletes for low iron: questions surface about ferritin, Sep, p 5-6, NB

Ankle

Acute ankle sprains: keys to diagnosis
continued

and return to play, Dec, p 29-35, RV
 Charcot-Marie-Tooth disease in a high school tennis player, Oct, p 47-52, CR
 Rehabilitating ankle sprains, Aug, p 48-50, CT
 When to return to play after an ankle sprain, Dec, p 39-40, PA
 Windsurfing injuries: added awareness for diagnosis, treatment, and prevention, May, p 15-24, RV

Antioxidant

The role of antioxidants in exercise and disease prevention, May, p 37-44, RV

Aortic insufficiency

Aortic valvular disease in active patients: overcoming diagnostic and management challenges, Dec, p 19-25, 35, RV

Aortic stenosis

Aortic valvular disease in active patients: overcoming diagnostic and management challenges, Dec, p 19-25, 35, RV
 Hypertension in a young golfer, Jun, p 21-24, 36, CR

Arthritis

Osteoarthritis of the glenohumeral joint: nonsurgical treatment options, Apr, p 19-30, RV

Arthroscopy

Shoulder dislocation in young athletes: current concepts in management, Dec, p 41-48, RV

Asthma

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

IOC asks athletes for asthma proof: request raises complex issues, Jan, p 15-16, NB

Popliteal artery entrapment masquerading as asthma, Aug, p 23-26, CR

Athlete's heart

Hypertrophic cardiomyopathy: practical steps for preventing sudden death, Jan, p 19-24, RV

The athletic heart syndrome: ruling out cardiac pathologies, Jul, p 41-47, RV

Back pain

Sacroiliac joint pain syndrome in active patients: a look behind the pain, Nov, p 30-37, RV

Windsurfing injuries: added awareness for diagnosis, treatment, and prevention, May, p 15-24, RV

Benign prostatic hypertrophy

Benign prostatic hypertrophy: which non-operative strategies are best?, Apr, p 41-47, RV

Beta agonist

IOC asks athletes for asthma proof: request raises complex issues, Jan, p 15-16, NB

Beta-blocker

Exercise in treating hypertension: tailoring therapies for active patients, Mar, p 11-23, 50, RV

Bicycling

Bike safety future takes shape, Apr, p 4,

7, 50, NB

Using an experimental bicycle seat to reduce perineal numbness, May, p 27-32, 44, R

Bike fitting

Using an experimental bicycle seat to reduce perineal numbness, May, p 27-32, 44, R

Bike seat: see Bicycling

Blood pressure: see Hypertension

Body composition assessment

Wrestling rules pin harmful weight cutting: fairness, validation concerns color debate, Dec, p 7-9, NB

Bone bruise

Femoral head contusion without hip dislocation: low-energy trauma in a female basketball player, Nov, p 38-42, CR

Bone density

Banking on strong bones for life: do you need calcium supplements?, Mar, p 39-40, PA

Evaluating and treating exercise-related menstrual irregularities, Mar, p 29-35, RV

Exercise-associated amenorrhea: are altered leptin levels an early warning sign?, Oct, p 41-46, RV

Tibial stress injuries: decisive diagnosis and treatment of 'shin splints,' Jun, p 29-36, RV

Brain injury: see Head, specific condition

Breast cancer

Exercise for breast cancer survivors: research evidence and clinical guidelines, Aug, p 33-42, RV

Breast-feeding

Exercising after you have your baby, Feb, p 38, PA

Promoting postpartum exercise: an opportune time for change, Feb, p 31-36, RV

Breathing

Coping with upper respiratory infections, Sep, p 49-50, PA

Upper respiratory infection: helpful steps for physicians, Sep, p 39-45, RV

Caffeine

Soda pop: an athlete's friend or foe?, Nov, p 17, NB

Calcium

Banking on strong bones for life: do you need calcium supplements?, Mar, p 39-40, PA

Cancer

Exercise for breast cancer survivors: research evidence and clinical guidelines, Aug, p 33-42, RV

Cardiac screening: see Preparticipation exam

Cardiomyopathy

Hypertrophic cardiomyopathy: practical steps for preventing sudden death, Jan, p 19-24, RV

The athletic heart syndrome: ruling out cardiac pathologies, Jul, p 41-47, RV

Cardiovascular: see Heart, Vascular conditions, specific diagnosis

Catastrophic injury

Pole vault deaths spur safety concerns, Jun, p 11-14, NB

Charcot-Marie-Tooth disease

Charcot-Marie-Tooth disease in a high school tennis player, Oct, p 47-52, CR

Children

Does training affect growth? answers to common questions, Oct, p 21-29, RV; (correction) Dec, p 15

Chronic disease: see specific diagnosis

Chronic heart failure

Exercise for those with chronic heart failure: matching programs to patients, Sep, p 29-38, 45, RV

Chronic obstructive pulmonary disease

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Cognitive function

Brain injury in soccer: new reports highlight unresolved issues, Jul, p 2-6, NB

Summary and agreement statement on the First International Conference on Concussion in Sport, Vienna 2001, Feb, p 57-63, PS

Colds

Coping with upper respiratory infections, Sep, p 49-50, PA

Upper respiratory infection: helpful steps for physicians, Sep, p 39-45, RV

Collapse

Heat balance limits in football uniforms: how different uniform ensembles alter the equation, Jul, p 29-39, R

Compliance

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Concussion

Acute clinical symptoms of concussion: assessing prognostic significance, Aug, p 43-47, RV

Brain injury in soccer: new reports highlight unresolved issues, Jul, p 2-6, NB

Summary and agreement statement on the First International Conference on Concussion in Sport, Vienna 2001, Feb, p 57-63, PS

Contusion

Evaluating and managing muscle contusions and myositis ossificans, Feb, p 41-50, RV

Coronary artery disease

Exercise and coronary artery disease: assessing causes and managing risks, Nov, p 23-29, RV

Cramps

Metabolic myopathies and physical activity: when fatigue is more than simple exertion, Jun, p 37-46, RV

Death: see Fatality

Depression

Exercise training and Parkinson's disease: placebo or essential treatment?, Mar, p 43-50, RV

Dermatology: see Skin conditions

continued

Diabetes

Pumping insulin during exercise: what healthcare providers and diabetic patients need to know, Apr, p 33-38, RV

Disease prevention

The role of antioxidants in exercise and disease prevention, May, p 37-44, RV

Dislocation

Evaluation and management of the unstable patella, Oct, p 33-40, RV

Shoulder dislocation in young athletes: current concepts in management, Dec, p 41-48, RV

Diuretics

Exercise in treating hypertension: tailoring therapies for active patients, Mar, p 11-23, 50, RV

Dogs

Pet project: can animals influence lifestyle changes?, Oct, p 13-14, NB

Doping: see Drug testing

Drug testing

IOC asks athletes for asthma proof: request raises complex issues, Jan, p 15-16, NB

The future of performance-enhancing substances in sport, Nov, p 51-53, GE

Drugs: see also specific drugs, Ergogenic drugs

Benign prostatic hypertrophy: which non-operative strategies are best?, Apr, p 41-47, RV

Evaluating and treating exercise-related menstrual irregularities, Mar, p 29-35, RV

Exercise in treating hypertension: tailoring therapies for active patients, Mar, p 11-23, 50, RV

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Exercise training and Parkinson's disease: placebo or essential treatment?, Mar, p 43-50, RV

IOC asks athletes for asthma proof: request raises complex issues, Jan, p 15-16, NB

Ketorolac use in the National Football League: prevalence, efficacy, and adverse effects, Sep, p 19-24, R

Osteoarthritis of the glenohumeral joint: nonsurgical treatment options, Apr, p 19-30, RV

Eating disorders

A little 'sports' medicine miracle, Jun, p 2, EN

Elderly: see Older patients

Electrocardiogram

The athletic heart syndrome: ruling out cardiac pathologies, Jul, p 41-47, RV

Electronic messaging

Feeling connected? Or just plain wired?, Oct, p 5, EN

Environmental injury: see Heat injury

Erectile dysfunction

Using an experimental bicycle seat to reduce perineal numbness, May, p 27-32, 44, R

Ergogenic drugs

The future of performance-enhancing substances in sport, Nov, p 51-53, GE

Ergogenic nutrition

The role of antioxidants in exercise and disease prevention, May, p 37-44, RV

Erythropoietin

The future of performance-enhancing substances in sport, Nov, p 51-53, GE

Ethics

First, ask no harmful questions, May, p 7, EN

Is it OK to be a fan and a team physician?, Sep, p 2, EN

The future of performance-enhancing substances in sport, Nov, p 51-53, GE

Exercise effects

Exercise for breast cancer survivors: research evidence and clinical guidelines, Aug, p 33-42, RV

Exercise for those with chronic heart failure: matching programs to patients, Sep, p 29-38, 45, RV

Exercise in treating hypertension: tailoring therapies for active patients, Mar, p 11-23, 50, RV

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Exercise training and Parkinson's disease: placebo or essential treatment?, Mar, p 43-50, RV

Pumping insulin during exercise: what healthcare providers and diabetic patients need to know, Apr, p 33-38, RV

The role of antioxidants in exercise and disease prevention, May, p 37-44, RV

Treatment of exercise incontinence with a urethral insert: a pilot study in women, Jan, p 45-48, R

Exercise motivation

Exercising after you have your baby, Feb, p 38, PA

How are you investing your time?, Jan, p 7, EN

Pet project: can animals influence lifestyle changes?, Oct, p 13-14, NB

Promoting postpartum exercise: an opportune time for change, Feb, p 31-36, RV

What's behind the women-only fitness center boom?, Nov, p 15-16, NB

Exercise prescription

Exercise and coronary artery disease: assessing causes and managing risks, Nov, p 23-29, RV

Exercise for breast cancer survivors: research evidence and clinical guidelines, Aug, p 33-42, RV

Exercise for those with chronic heart failure: matching programs to patients, Sep, p 29-38, 45, RV

Exercise in treating hypertension: tailoring therapies for active patients, Mar, p 11-23, 50, RV

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Exercise training and Parkinson's disease: placebo or essential treatment?, Mar, p 43-50, RV

Exercising after you have your baby, Feb, p 38, PA

New ACOG recommendations encourage exercise in pregnancy, Aug, p 9-10, NB

Promoting postpartum exercise: an opportune time for change, Feb, p 31-36, RV

Exercise risks

Aortic valvular disease in active patients: overcoming diagnostic and management challenges, Dec, p 19-25, 35, RV

Exercise and coronary artery disease: assessing causes and managing risks, Nov, p 23-29, RV

Exercise testing: see Stress testing

Exercise-induced asthma: see Asthma

Fatality: see also Sudden death

Heat balance limits in football uniforms: how different uniform ensembles alter the equation, Jul, p 29-39, R

Pole vault deaths spur safety concerns, Jun, p 11-14, NB

Fatigue

Metabolic myopathies and physical activity: when fatigue is more than simple exertion, Jun, p 37-46, RV

Ferritin

Screening athletes for low iron: questions surface about ferritin, Sep, p 5-6, NB

Fitness center: see Health club

Foot

Healing heel pain: help for plantar fasciitis, Jul, p 27-28, PA; (letter) Dec, p 14

Plantar fasciitis: prescribing effective treatments, Jul, p 21-25, RV

Windsurfing injuries: added awareness for diagnosis, treatment, and prevention, May, p 15-24, RV

Football

Heat balance limits in football uniforms: how different uniform ensembles alter the equation, Jul, p 29-39, R

Ketorolac use in the National Football League: prevalence, efficacy, and adverse effects, Sep, p 19-24, R

Growth and development

Does training affect growth? answers to common questions, Oct, p 21-29, RV; (correction) Dec, p 15

Gymnastics

Does training affect growth? answers to common questions, Oct, p 21-29, RV; (correction) Dec, p 15

Gynecology: see Women's health

Head

Acute clinical symptoms of concussion: assessing prognostic significance, Aug, p 43-47, RV

Brain injury in soccer: new reports highlight unresolved issues, Jul, p 2-6, NB

Pole vault deaths spur safety concerns, Jun, p 11-14, NB

Summary and agreement statement on the First International Conference on Concussion in Sport, Vienna 2001, Feb, p 57-63, PS

Neurologic condition

Acute clinical symptoms of concussion: assessing prognostic significance, Aug, p 43-47, RV

Neurometabolic disease

Metabolic myopathies and physical activity: when fatigue is more than simple exertion, Jun, p 37-46, RV

Neuropsychological testing

Acute clinical symptoms of concussion: assessing prognostic significance, Aug, p 43-47, RV

Nonsteroidal anti-inflammatory drug

Ketorolac use in the National Football League: prevalence, efficacy, and adverse effects, Sep, p 19-24, R

Nutrition

Banking on strong bones for life: do you need calcium supplements?, Mar, p 39-40, PA

Soda pop: an athlete's friend or foe?, Nov, p 17, NB

Older patients

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Exercise training and Parkinson's disease: placebo or essential treatment?, Mar, p 43-50, RV

Olympics

Fitness and Olympic medicine for all, Feb, p 3, EN

IOC asks athletes for asthma proof: request raises complex issues, Jan, p 15-16, NB

Olympic medical plan incorporates business and technology updates, Feb, p 15-16, NB

Osteoarthritis: see Arthritis

Osteoporosis

Banking on strong bones for life: do you need calcium supplements?, Mar, p 39-40, PA

Exercise prescriptions for active seniors: a team approach to maximizing adherence, Feb, p 19-29, RV

Overtraining

Does training affect growth? answers to common questions, Oct, p 21-29, RV; (correction) Dec, p 15

Overuse injury

New for marathon medical management: a postrace clinic, May, p 48-52, NB

Pain: see also Rehabilitation, anatomic site

Femoral supracondylar stress fractures: an unusual cause of knee pain, Sep, p 25-28, CR

Ketorolac use in the National Football League: prevalence, efficacy, and adverse effects, Sep, p 19-24, R

Ketorolac use in the National Football League: prevalence, efficacy, and adverse effects, Sep, p 19-24, R

Sacroiliac joint pain syndrome in active patients: a look behind the pain, Nov, p 30-37, RV

Parkinson's disease

Exercise training and Parkinson's disease: placebo or essential treatment?, Mar, p 43-50, RV

Patella

Evaluation and management of the unstable patella, Oct, p 33-40, RV

Patellofemoral pain

Femoral supracondylar stress fractures: an unusual cause of knee pain, Sep, p 25-28, CR

Perineal numbness

Using an experimental bicycle seat to reduce perineal numbness, May, p 27-32, 44, R

Pets

Pet project: can animals influence lifestyle changes?, Oct, p 13-14, NB

Physical therapy: see Rehabilitation

Physician education

Diversify your primary care practice, Dec, p 2, EN

Musculoskeletal knowledge: how do you stack up?, Aug, p 2, EN

Orthopedics vs primary care: time for a cease-fire, Apr, p 3, EN

Plantar fasciitis

Healing heel pain: help for plantar fasciitis, Jul, p 27-28, PA; (letter) Dec, p 14

Plantar fasciitis: prescribing effective treatments, Jul, p 21-25, RV

Pole vault

Pole vault deaths spur safety concerns, Jun, p 11-14, NB

Pop: see Soda

Popliteal artery entrapment

Popliteal artery entrapment masquerading as asthma, Aug, p 23-26, CR

Position statement
