

# INDEX

to volume 31  
Jan-Dec 2003

The 2003 Annual Index lists articles by regular department, author, and subject. One- or two-letter codes after articles in the author and subject sections indicate the article type:

**CQ:** Clinical Quiz  
**CR:** Case Report  
**CT:** Clinical Techniques  
**EN:** Editor's Notes  
**NB:** News Briefs  
**PA:** Patient Adviser  
**R:** Research  
**RV:** Review article  
**SS:** Spotlight on Sports Medicine

## Department

### Clinical Techniques

Identifying and treating uncomplicated corneal abrasions, Aug, p 15-17

### Editor's Notes

Reflecting on 30 years of moving forward, Jan, p 2  
Putting exercise science to practice, Mar, p 2  
Kids' sports: a training ground for life...and for parents, May, p 2  
An active future for primary care sports medicine, Jun, p 2  
Exercise: a tradition to take to heart, Jul, p 2  
Sports: hazardous to your health?, Oct, p 2  
Obesity epidemic: time to swallow the frog, Nov, p 5  
Sports medicine's primary focus: health for all, Dec, p 7

### News Briefs

Sports medicine braces for HIPAA impact, Jan, p 8-14  
Sending sports gear to the showers: benefits for players' skin?, Feb, p 9-12  
Exploring body art trends: pierced tongues raise concern, Mar, p 7-8  
Ephedra use under fire: deaths amplify safety concerns, Apr, p 13-15  
Ties that bind sports medicine and military medicine: wartime docs showcase the connections, May, p 16-18  
Diet wars: low-carb vs low-fat: new studies shed light, Jun, p 13-16  
New hydration recommendations: risk of hyponatremia plays a big role, Jul, p 15-18

Heat illness prevention goes high tech: new devices enter sports medicine market, Aug, p 2-6, 14  
Managing stress incontinence: updates on efficacy, new treatments, Sep, p 3-4, 14  
Osteoporosis in men: who's at risk?, Oct, p 15-18  
A rise in kids' distal forearm fractures: what's the cause?, Nov, p 11-15  
Experts see silver lining in THG scandal, Dec, p 16-17

### Patient Adviser

Stronger shoulders for swimmers, Jan, p 47-48  
Avoiding infections: staying healthy, performing well, Feb, Web only  
Overtraining syndrome: why training too hard, too long, doesn't work, Jun, p 47-48  
Choosing a strength training program for kids, Sep, p 27-28  
Weight loss success: small steps to reach your goals, Nov, p 37-38  
Steps to take for clavicle fractures, Dec, Web only

### Spotlight on Sports Medicine

30 years of sports medicine—and *Sportsmedicine*, Jan, p 15-18  
Getting patients moving: is activity promotion paying off?, Feb, p 19, 46  
A revolution in diagnostic imaging, Mar, p 21-22  
The ripple effect of Title IX on women's health issues: treating an increasingly active population, Apr, p 21-23  
The beat goes on: three decades of stunning advances in cardiology, Jun, p 17-21  
Making strides in rehabilitation: comprehensive sports medicine care soldiers on, Aug, p 21-22  
Mending injured athletes: a track record on orthopedic advances, Sep, p 13-14  
Key to the fountain of youth: physically active for life, Dec, p 37-38

## Author

**Amundson CL:** see Koester MC, Aug, p 35-38  
**Anan T:** see Patterson BL, Dec, p 26-29  
**Andersen RE:** Obesity epidemic: time to swallow the frog, Nov, p 5, EN  
**Andersen RE:** Physical activity and weight management: building the case for exercise, Nov, p 39-45, RV  
**Arbesman J:** see Crespo CJ, Nov, p 23-28  
**Arko FR:** Arterial and venous injuries in athletes: findings and their effect on diagnosis and treatment, Apr, p 41-48, R  
**Bartlett SJ:** Motivating patients toward weight loss: practical strategies for ad-

ressing overweight and obesity, Nov, p 29-36, RV  
**Bartlett SJ:** Weight loss success: small steps to reach your goals, Nov, p 37-38, PA  
**Bartolozzi AR:** see Curley KJ, Jan, p 31-34  
**Beals KA:** Eating disorder and menstrual dysfunction screening, education, and treatment programs: survey results from NCAA division 1 schools, Jul, p 33-38, R  
**Beaulieu C:** see Fredericson M, Feb, p 31-42  
**Benjamin HJ:** Choosing a strength training program for kids, Sep, p 27-28, PA  
**Benjamin HJ:** Strength training for children and adolescents: what can physicians recommend?, Sep, p 19-26, RV  
**Birrer RB:** Exercise and diabetes mellitus: optimizing performance in patients who have type 1 diabetes, May, p 29-41, RV  
**Brubaker DA:** Behavioral contracting in the treatment of eating disorders, Sep, p 15-18, 26, RV  
**Butterwick DJ:** Bull riding injuries in professional rodeo: data for prevention and care, Jun, p 37-41, R

**Chen AL:** Degenerative lumbar spinal stenosis: options for aging backs, Aug, p 25-34, RV  
**Choung EW:** Slipped capital femoral epiphysis in an obese teenager, Jul, p 39-45, CR  
**Coppola GW:** see Shea MA, Sep, p 31-33  
**Crespo CJ:** Obesity in the United States: a worrisome epidemic, Nov, p 23-28, RV  
**Curley KJ:** Pneumomediastinum from sports-related trauma: key findings and recommendations, Jan, p 31-34, CR

**Daniels JM:** Managing myofascial pain syndrome: sorting through the diagnosis and honing treatment, Oct, p 39-45, RV  
**DeLuca PF:** see Curley KJ, Jan, p 31-34  
**DePalma MJ:** Detecting and treating shoulder impingement syndrome: the role of scapulothoracic dyskinesis, Jul, p 25-32, RV  
**Dexter WW:** see Sweeney TM, Jun, p 32-36  
**Dorshimer GW:** see Curley KJ, Jan, p 31-34

**Flaker G:** see Wen DY, Oct, p 21-24, 35  
**Fredericson M:** see Johnson JN, Jan, p 41-46  
**Fredericson M:** see Johnson JN, Jan, p 47-48  
**Fredericson M:** Sacral stress fractures: tracking down nonspecific pain in distance runners, Feb, p 31-42, RV  
**Frontera WR:** Exercise and musculoskeletal rehabilitation: restoring optimal form and function, Dec, p 39-45, RV

*continued*

## Subject

### Abrasion

Identifying and treating uncomplicated corneal abrasions, Aug, p 15-17, CT

**Acute mountain sickness:** see Altitude sickness

### Adolescents

A rise in kids' distal forearm fractures: what's the cause?, Nov, p 11-15, NB

Choosing a strength training program for kids, Sep, p 27-28, PA

Kids' sports: a training ground for life...and for parents, May, p 2, EN

Preparticipation screening of high school athletes: are recommendations enough?, Aug, p 35-38, R

Slipped capital femoral epiphysis in an obese teenager, Jul, p 39-45, CR

Strength training for children and adolescents: what can physicians recommend?, Sep, p 19-26, RV

### Adverse effects

NSAIDs and musculoskeletal treatment: what is the clinical evidence?, Jan, p 35-40, 52, RV

### Aerobic exercise

Aerobic exercise and endurance: improving fitness for health benefits, May, p 45-51, RV

Exercise and musculoskeletal rehabilitation: restoring optimal form and function, Dec, p 39-45, RV

**Aging:** see Older patients

**AIDS:** see HIV

### Allergy

Cholinergic urticaria in a jogger: ruling out exercise-induced anaphylaxis, Jun, p 32-36, CR; (letter) Nov, p 20

### Altitude sickness

Preparing active patients for international travel, Oct, p 27-35, RV

### Alzheimer's disease

Key to the fountain of youth: physically active for life, Dec, p 37-38, SS

**Amenorrhea:** see Menstrual dysfunction

### American College of Sports Medicine

An active future for primary care sports medicine, Jun, p 2, EN

### Anabolic steroids

Experts see silver lining in THG scandal, Dec, p 16-17, NB

### Anaphylaxis

Cholinergic urticaria in a jogger: ruling out exercise-induced anaphylaxis, Jun, p 32-36, CR; (letter) Nov, p 20

### Aneurysm

Arterial and venous injuries in athletes: findings and their effect on diagnosis and treatment, Apr, p 41-48, R

### Ankle

Ankle dislocation without fracture, May, p 42-44, CR

**Anterior cruciate ligament:** see Knee

### Arm

A rise in kids' distal forearm fractures: what's the cause?, Nov, p 11-15, NB

**Arrhythmia:** see also specific diagnosis

Atrial flutter in a college football player: return to play or not?, Oct, p 21-24, 35, CR

Cardiac arrhythmia in a professional football player: was ephedrine to blame?, Dec, p 21-25, 29, CR

### Arthritis

Glenohumeral osteoarthritis in active patients: diagnostic tips and complete management options, Apr, p 33-40, RV

Key to the fountain of youth: physically active for life, Dec, p 37-38, SS

NSAIDs and musculoskeletal treatment: what is the clinical evidence?, Jan, p 35-40, 52, RV

### Arthroplasty

Glenohumeral osteoarthritis in active patients: diagnostic tips and complete management options, Apr, p 33-40, RV

### Arthroscopy

Glenohumeral osteoarthritis in active patients: diagnostic tips and complete management options, Apr, p 33-40, RV

Mending injured athletes: a track record on orthopedic advances, Sep, p 13-14, SS

**Autograft:** see Graft

### Back pain

Degenerative lumbar spinal stenosis: options for aging backs, Aug, p 25-34, RV

**Bacterial infection:** see Infection

**Barriers to exercise:** see Exercise motivation

### Biomechanics

Detecting and treating shoulder impingement syndrome: the role of scapulothoracic dyskinesis, Jul, p 25-32, RV

Swimming biomechanics and injury prevention: new stroke techniques and medical considerations, Jan, p 41-46, RV

**Black health:** see Minority health

### Body mass index

Physical activity and weight management: building the case for exercise, Nov, p 39-45, RV

### Body piercing

Exploring body art trends: pierced tongues raise concern, Mar, p 7-8, NB

**Bodybuilding:** see Strength training, Ergogenic drugs, Ergogenic nutrition

### Bone density

Osteoporosis in men: who's at risk?, Oct, p 15-18, NB

**Bull riding:** see Rodeo

### Carbohydrate

Diet wars: low-carb vs low-fat: new studies shed light, Jun, p 13-16, NB

**Cardiac screening:** see Preparticipation exam

**Cardiovascular:** see Heart, Vascular conditions, specific diagnosis

### Cartilage transplant

Mending injured athletes: a track record on orthopedic advances, Sep, p 13-14, SS

### Chest pain

Pneumomediastinum from sports-related trauma: key findings and recommendations, Jan, p 31-34, CR

### Children

A rise in kids' distal forearm fractures: what's the cause?, Nov, p 11-15, NB

Choosing a strength training program for kids, Sep, p 27-28, PA

Obesity in the United States: a worrisome epidemic, Nov, p 23-28, RV

Strength training for children and adolescents: what can physicians recommend?, Sep, p 19-26, RV

### Cholesterol

The beat goes on: three decades of stunning advances in cardiology, Jun, p 17-21, SS

### Claudication

Degenerative lumbar spinal stenosis: options for aging backs, Aug, p 25-34, RV

### Clavicle

Clavicle fractures: individualizing treatment for fracture type, Dec, p 30-36, RV

Steps to take for clavicle fractures, Dec, Web only, PA

**Clearance:** see Return to play

### Collapse

Exercise-associated collapse: postural hypotension, or something deadlier?, Mar, p 23-29, RV

### Contract

Behavioral contracting in the treatment of eating disorders, Sep, p 15-18, 26, RV

**Core temperature:** see Heat injury

**Cornea:** see Eye

### Coronary artery disease

Preparticipation screening of athletic officials: SEC football referees at risk, Mar, p 43-48, R

### Corticosteroids

Degenerative lumbar spinal stenosis: options for aging backs, Aug, p 25-34, RV

### COX-2 inhibitors

NSAIDs and musculoskeletal treatment: what is the clinical evidence?, Jan, p 35-40, 52, RV

### Cryotherapy

Heat illness prevention goes high tech: new devices enter sports medicine market, Aug, p 2-6, 14, NB
