

INDEX

to volume 32

Jan-Dec 2004

The 2004 Annual Index lists articles by regular department, author, and subject. One- or two-letter codes after articles in the author and subject sections indicate the article type:

C: Commentary
CQ: Clinical Quiz
CR: Case Report
EN: Editor's Notes
GF: Gatefold Feature
NB: News Briefs
PA: Patient Adviser
R: Research
RV: Review article

Department

Editor's Notes

Practically packed with practical practice information, Jan, p 3
Patient care is more than skin deep: medical coverage from the PPE to HPV, May, p 2
Prevention for all: applying our high-tech treatment know-how, Jun, p 1
Test of medal: let's focus on the many bright Olympic moments, Aug, p 2
Prevention vs iatrogenic harm, Oct, p 1
Why settle for baseline health and fitness?, Dec, p 2

News Briefs

The South Beach diet: weighing the pros and cons, Jan, p 9-10
Sports medicine moves toward specialty status: a new subspecialty for orthopedic surgery, Feb, p 10-14
Paintball popularity explodes: targeting injury and fitness elements, Mar, p 11-15
Dietary guidelines for water and electrolytes: what role for thirst?, Apr, p 12, 41
Can exercise improve breast cancer survival?, May, p 13-16
Survey suggests a decline in obesity counseling: physicians analyze reasons, Jun, p 18-20, 40
Core temperature measurement goes high tech: pill sensor enables wireless monitoring, Jul, p 10-15
Olympic preview: an update on drug testing, Aug, p 15-16
Medical team heads to Athens, Aug, p 16-17
Heatstroke fatalities fan discussion: two deaths in high school football, Sep, p 8-10

New organs, active lives: transplant recipients reap exercise benefits, Sep, p 10-12
MRSA infections: physicians expect to see more cases in athletes, Oct, p 12-17
Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12
New recommendations for concussion management, Dec, p 12-14
Medical team heads to Athens, Aug, p 16-17

Patient Adviser

Steps to take for clavicle fractures, Jan, p 45-46
Coping with patellofemoral syndrome, Jul, p 30-31
Steps to take for dental injuries, Sep, p 35-36
Treating and avoiding herpes and tinea infections in contact sports, Oct, p 43-44

Author

Adams ES: Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV
Aljassir F: see Burman ML, Jun, p 41-44
Asplund C: Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV
Bach BR Jr: see Smith AH, Oct, p 45-48
Bach BR Jr: see Smith AH, Dec, p 39-43
Basler RSW: Athletic skin injuries: combating pressure and friction, May, p 33-40, RV
Bents RT: Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R
Bhaskarabhatla KV: Physical activity and type 2 diabetes: tailoring exercise to optimize fitness and glycemic control, Jan, p 13-17, RV
Birrer R: see Bhaskarabhatla KV, Jan, p 13-17
Bollier MJ: see Tonino PM, Feb, p 37-40
Brown TP: Exertional rhabdomyolysis: early recognition is key, Apr, p 15-20, RV
Brukner P: see Glazer JL, Nov, p 24-28
Burman ML: Ganglion cyst and olecranon physis nonunion in a baseball pitcher: unique treatment after conservative therapy failure, Jun, p 41-44, CR
Bytowski JR: Tibial eminence fracture in an adult: a possibility with rotational injuries, Jan, p 20-23, 31, CR
Chang CJ: see Landry GL, Oct, p 34-41
Chang CJ: see Landry GL, Oct, p 43-44
Chew KTL: Myotonia congenita in a young active man: symptoms and physique tip the diagnosis, Jul, p 18-21, CR

Clugston JR: An unusual cause of medial arm pain, Jan, p 32-34, CQ: (letter) Apr, p 4
Coetsee JC: see Stovitz SD, Aug, p 19-26
Cogliano A: see Petrella RJ, Jul, p 41-45
Coughlin LP: see Burman ML, Jun, p 41-44
Cross LH: see Miller LE, Feb, p 18-24
Cyr PR: Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV

DePalma MJ: Patellar tendinosis: acute patellar tendon rupture and jumper's knee, May, p 41-45, CR
Dexter WW: see Winokur RC, Oct, p 23-33
Dexter WW: see Snowise M, Dec, p 26-32
Dykes HW Jr: A locked knee in an adolescent boy: resolving meniscal pathology in young athletes, Aug, p 43-47, CR

Editorial staff: Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Feder KS: see Wallis DH, Sep, p 39-42
Ferro RT: see Bytowski JR, Jan, p 20-23, 31
Frere JA: The risk of death in running road races: does race length matter?, Apr, p 33-40, R

Garcia MA: see Basler RSW, May, p 33-40
Gavin J: Pairing personality with activity: new tools for inspiring active lifestyles, Dec, p 17-24, RV
Glazer JL: Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV
Goldberg L: see Bents RT, Sep, p 30-34
Gwazdauskas FC: see Miller LE, Feb, p 18-24

Haney S: see Wallis DH, Sep, p 39-42
Hayek SM: Complex regional pain syndrome: redefining reflex sympathetic dystrophy and causalgia, May, p 18-25, RV

Heinicka SH: see Clugston JR, Jan, p 32-34
Herbert WG: see Miller LE, Feb, p 18-24
Hohl WM: see Wallis DH, Sep, p 39-42
Honsik KA: Emergency treatment of denotoalveolar trauma: essential tips for treating active patients, Sep, p 23-29, RV
Honsik KA: Steps to take for dental injuries, Sep, p 35-36, PA
Housner JA: Steps to take for clavicle fractures, Jan, p 45-46, PA
Hunzeker CM: see Basler RSW, May, p 33-40

Idjadi J: Symptomatic snapping hip: targeted treatment for maximum pain relief, Jan, p 25-31, RV

Joy EA: Musculoskeletal curricula in med-

- ical education: filling in the missing pieces, Nov, p 42-45, 48, CM
- Kelly JD IV:** Shoulder pain and weakness, Nov, p 19-23, CQ
- Kuhn JE:** see Housner JA, Jan, p 45-46

Subject

- Abrasion**
Athletic skin injuries: combating pressure and friction, May, p 33-40, RV
- Acne mechanica**
Athletic skin injuries: combating pressure and friction, May, p 33-40, RV
- Adolescents**
A locked knee in an adolescent boy: resolving meniscal pathology in young athletes, Aug, p 43-47, CR
Heatstroke fatalities fan discussion: two deaths in high school football, Sep, p 8-10, NB
Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV
- Adverse effects**
Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12, NB
Prevention vs iatrogenic harm, Oct, p 1, EN
- Allergy**
Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV
- Amphetamine**
Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R

continued

Amputation

The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV

Analgesics

Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12, NB

Anaphylaxis

Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV

Ankle

High ankle sprains: minimizing the frustration of a prolonged recovery, Dec, p 39-43, RV

Anterior cruciate ligament: see Knee

Anterior knee pain: see Knee, Patellofemoral syndrome

Antibiotics

Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV

MRSA infections: physicians expect to see more cases in athletes, Oct, p 12-17, NB

Arm

An unusual cause of medial arm pain, Jan, p 32-34, CO: (letter) Apr, p 4

Bilateral musculocutaneous nerve palsy from strength training, Mar, p 18-20, CR

Arthritis

Intra-articular hyaluronic acid treatment for golfer's toe: keeping older golfers on course, Jul, p 41-45, R

Arthrofibrosis

Posterior knee pain and its causes: a clinician's guide to expediting diagnosis, Mar, p 23-30, RV

Asthma

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Avulsion

Emergency treatment of dentoalveolar trauma: essential tips for treating active patients, Sep, p 23-29, RV

Steps to take for dental injuries, Sep, p 35-36, PA

Bacterial infection: see Infection

Baker's cyst

Posterior knee pain and its causes: a clinician's guide to expediting diagnosis, Mar, p 23-30, RV

Barriers to exercise: see Exercise motivation

Biceps: see Arm

Bicycling

Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV

Bike fitting

Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV

Biomechanics

Hyperpronation and foot pain: steps toward pain-free feet, Aug, p 19-26, RV

Blister

Athletic skin injuries: combating pressure and friction, May, p 33-40, RV

Blood pressure: see Hypertension

Blood sugar: see Glucose

Bone density

Bone mineral density in postmenopausal women: does exercise training make a difference?, Feb, p 18-24, R

Brain injury: see Head, specific condition

Breast cancer

Can exercise improve breast cancer survival?, May, p 13-16, NB

Bursitis

Ganglion cyst and olecranon physis nonunion in a baseball pitcher: unique treatment after conservative therapy failure, Jun, p 41-44, CR

Calf: see Leg

Callus

Athletic skin injuries: combating pressure and friction, May, p 33-40, RV

Cancer

Can exercise improve breast cancer survival?, May, p 13-16, NB

Cardiac screening: see Preparticipation exam

Cardiomyopathy

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

Cardiovascular: see Heart, specific diagnosis

Causalgia: see Complex regional pain syndrome

Chilblains

Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec, p 26-32, RV

Cholesterol

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Chronic fatigue

Chronic fatigue syndrome: matching exercise to symptom fluctuations, Feb, p 28-32, RV

Clavicle

Steps to take for clavicle fractures, Jan, p 45-46, PA

Clearance: see Return to play

Cold injury

Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec, p 26-32, RV

Compartment syndrome

Exertional compartment syndrome in an equestrian, Feb, p 33-36, CR

Complex regional pain syndrome

Complex regional pain syndrome: redefining reflex sympathetic dystrophy and causalgia, May, p 18-25, RV

Concussion

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

New recommendations for concussion management, Dec, p 12-14, NB

Core temperature: see Cold injury, Heat injury

Coronoid process: see Elbow

Corticosteroids

Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV

COX-2 inhibitors

Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12, NB

Cramps

Myotonia congenita in a young active man: symptoms and physique tip the diagnosis, Jul, p 18-21, CR

Curriculum: see Physician education

Cyst

Ganglion cyst and olecranon physis nonunion in a baseball pitcher: unique treatment after conservative therapy failure, Jun, p 41-44, CR

Dehydration

Dietary guidelines for water and electrolytes: what role for thirst?, Apr, p 12, 41, NB

Dental injuries: see Mouth

Dermatitis

Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV

Rash after ACL reconstruction: asking the right questions, Oct, p 45-48, CO

Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV

Dermatology: see Skin conditions

DEXA: see Diagnostic imaging

Diabetes

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Physical activity and type 2 diabetes: tailoring exercise to optimize fitness and glycemic control, Jan, p 13-17, RV

Diagnostic imaging

A locked knee in an adolescent boy: resolving meniscal pathology in young athletes, Aug, p 43-47, CR

Bone mineral density in postmenopausal women: does exercise training make a difference?, Feb, p 18-24, R

The Ottawa knee rule: avoiding unnecessary radiographs in sports, May, p 26-32, RV

Dieting: see Weight control, Nutrition

Disability

The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV

The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV

Doping: see Drug testing

Drug resistance

MRSA infections: physicians expect to see more cases in athletes, Oct, p 12-17, NB

Drug testing

Olympic preview: an update on drug testing, Aug, p 15-16, NB

Test of medal: let's focus on the many bright Olympic moments, Aug, p 2, EN

Drugs: see also specific drugs, Ergogenic drugs

Complex regional pain syndrome: redefining reflex sympathetic dystrophy and causalgia, May, p 18-25, RV

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R

Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12, NB

Dyslipidemia: see Cholesterol

Echocardiography

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

Economic issues

Medical supervision of high school football in Chicago: does inadequate staffing compromise healthcare?, Feb, p 37-40, R

Eczema

Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV

Education: see Physician education

Elbow

An uncommon elbow injury in a baseball player, Mar, p 39-42, CQ

An unusual cause of medial arm pain, Jan, p 32-34, CQ; (letter) Apr, p 4

Ganglion cyst and olecranon physis nonunion in a baseball pitcher: unique treatment after conservative therapy failure, Jun, p 41-44, CR

Elderly: see Older patients

Electrocardiogram

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

Ephedrine

Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R

Epidemiology

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

Equestrian sports

Exertional compartment syndrome in an equestrian, Feb, p 33-36, CR

Ergogenic drugs

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R

Olympic preview: an update on drug testing, Aug, p 15-16, NB

Exercise effects

Bone mineral density in postmenopausal women: does exercise training make a

difference?, Feb, p 18-24, R

Can exercise improve breast cancer survival?, May, p 13-16, NB

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

New organs, active lives: transplant recipients reap exercise benefits, Sep, p 10-12, NB

Exercise motivation

Pairing personality with activity: new tools for inspiring active lifestyles, Dec, p 17-24, RV

Survey suggests a decline in obesity counseling: physicians analyze reasons, Jun, p 18-20, 40, NB

Exercise prescription

Can exercise improve breast cancer survival?, May, p 13-16, NB

Chronic fatigue syndrome: matching exercise to symptom fluctuations, Feb, p 28-32, RV

Coping with patellofemoral syndrome, Jul, p 30-31, PA

New organs, active lives: transplant recipients reap exercise benefits, Sep, p 10-12, NB

Pairing personality with activity: new tools for inspiring active lifestyles, Dec, p 17-24, RV

Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV

Physical activity and type 2 diabetes: tailoring exercise to optimize fitness and glycemic control, Jan, p 13-17, RV

Exercise risks

Exertional rhabdomyolysis: early recognition is key, Apr, p 15-20, RV

The risk of death in running road races: does race length matter?, Apr, p 33-40, R

Exercise-induced allergy: see Allergy

Exercise-induced bronchospasm: see Asthma

Eye

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Fat, body: see Obesity, Weight control

Fatality: see also Sudden death

Heatstroke fatalities fan discussion: two deaths in high school football, Sep, p 8-10, NB

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

The risk of death in running road races: does race length matter?, Apr, p 33-40, R

Fatigue

Chronic fatigue syndrome: matching exercise to symptom fluctuations, Feb, p 28-32, RV

Fluids: see Hydration

Folliculitis

Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV

Food sensitivity

Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV

Foot

Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV

Hyperpronation and foot pain: steps toward pain-free feet, Aug, p 19-26, RV

Intra-articular hyaluronic acid treatment for golfer's toe: keeping older golfers on course, Jul, p 41-45, R

Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV

Football

Core temperature measurement goes high tech: pill sensor enables wireless monitoring, Jul, p 10-15, NB

Heatstroke fatalities fan discussion: two deaths in high school football, Sep, p 8-10, NB

Medical supervision of high school football in Chicago: does inadequate staffing compromise healthcare?, Feb, p 37-40, R

Fracture: see also Stress fracture

An uncommon elbow injury in a baseball player, Mar, p 39-42, CQ

Steps to take for clavicle fractures, Jan, p 45-46, PA

The Ottawa knee rule: avoiding unnecessary radiographs in sports, May, p 26-32, RV

Tibial eminence fracture in an adult: a possibility with rotational injuries, Jan, p 20-23, 31, CR

Wrist pain after a fall, Sep, p 39-42, CQ

Frostbite

Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec, p 26-32, RV

Fungal infection

Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV

Herpes and tinea in wrestling: managing outbreaks, knowing when to disqualify, Oct, p 34-41, RV

Treating and avoiding herpes and tinea infections in contact sports, Oct, p 43-44, PA

Ganglion cyst

Ganglion cyst and olecranon physis nonunion in a baseball pitcher: unique treatment after conservative therapy failure, Jun, p 41-44, CR

Genetics

Myotonia congenita in a young active man: symptoms and physique tip the diagnosis, Jul, p 18-21, CR

Glucose: see also Diabetes

Physical activity and type 2 diabetes: tailoring exercise to optimize fitness and glycemic control, Jan, p 13-17, RV

continued

Glucose intolerance

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Golf

Intra-articular hyaluronic acid treatment for golfer's toe: keeping older golfers on course, Jul, p 41-45, R

Hallux valgus: see Foot

Hamstring: see Thigh

Head

New recommendations for concussion management, Dec, p 12-14, NB

Heart: see also specific diagnosis, Electrocardiogram, Sudden death

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

Heat injury

Core temperature measurement goes high tech: pill sensor enables wireless monitoring, Jul, p 10-15, NB

Heatstroke fatalities fan discussion: two deaths in high school football, Sep, p 8-10, NB

Heel: see Foot

Herpes

Herpes and tinea in wrestling: managing outbreaks, knowing when to disqualify, Oct, p 34-41, RV

Treating and avoiding herpes and tinea infections in contact sports, Oct, p 43-44, PA

Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV

Hip

Symptomatic snapping hip: targeted treatment for maximum pain relief, Jan, p 25-31, RV

Hockey

Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R

Humerus: see Arm, Shoulder, Elbow

Hydration

Dietary guidelines for water and electrolytes: what role for thirst?, Apr, p 12, 41, NB

Hyperpronation

Hyperpronation and foot pain: steps toward pain-free feet, Aug, p 19-26, RV

Hypertension

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Hypertrophic cardiomyopathy: see Cardiomyopathy

Iatrogenic harm: see Adverse effects

Iliotibial band

Symptomatic snapping hip: targeted treatment for maximum pain relief, Jan, p 25-31, RV

Impetigo

Common bacterial dermatoses: protecting

competitive athletes, Jun, p 33-39, RV

Infection: see also Fungal infection, specific diagnosis

Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV

Herpes and tinea in wrestling: managing outbreaks, knowing when to disqualify, Oct, p 34-41, RV

MRSA infections: physicians expect to see more cases in athletes, Oct, p 12-17, NB

Treating and avoiding herpes and tinea infections in contact sports, Oct, p 43-44, PA

Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV

Inherited disorders: see Genetics

Injury prevention: see also Prevention

Emergency treatment of dentoalveolar trauma: essential tips for treating active patients, Sep, p 23-29, RV

Paintball popularity explodes: targeting injury and fitness elements, Mar, p 11-15, NB

Prevention for all: applying our high-tech treatment know-how, Jun, p 1, EN

Steps to take for dental injuries, Sep, p 35-36, PA

Insulin resistance

Physical activity and type 2 diabetes: tailoring exercise to optimize fitness and glycemic control, Jan, p 13-17, RV

Iontophoresis: see Shock-wave therapy

Itching: see Pruritus

Joint: see specific joint

Jumper's knee

Patellar tendinitis: acute patellar tendon rupture and jumper's knee, May, p 41-45, CR

Kidney

Exertional rhabdomyolysis: early recognition is key, Apr, p 15-20, RV

Knee

A locked knee in an adolescent boy: resolving meniscal pathology in young athletes, Aug, p 43-47, CR

Coping with patellofemoral syndrome, Jul, p 30-31, PA

Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV

Patellar tendinitis: acute patellar tendon rupture and jumper's knee, May, p 41-45, CR

Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV

Posterior knee pain and its causes: a clinician's guide to expediting diagnosis, Mar, p 23-30, RV

The Ottawa knee rule: avoiding unnecessary radiographs in sports, May, p 26-32, RV

Tibial eminence fracture in an adult: a possibility with rotational injuries, Jan, p 20-23, 31, CR

Leg

Exertional compartment syndrome in an equestrian, Feb, p 33-36, CR

Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV

Posterior knee pain and its causes: a clinician's guide to expediting diagnosis, Mar, p 23-30, RV

Lice: see Pediculosis

Lipids: see Cholesterol

Malalignment

Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV

Marathon: see Running

Medical costs: see Economic issues

Medical equipment

Core temperature measurement goes high tech: pill sensor enables wireless monitoring, Jul, p 10-15, NB

Medical practice

Medical supervision of high school football in Chicago: does inadequate staffing compromise healthcare?, Feb, p 37-40, R

Prevention vs iatrogenic harm, Oct, p 1, EN

Sports medicine moves toward specialty status: a new subspecialty for orthopedic surgery, Feb, p 10-14, NB

Survey suggests a decline in obesity counseling: physicians analyze reasons, Jun, p 18-20, 40, NB

Why settle for baseline health and fitness?, Dec, p 2, EN

Medical supervision: see Supervision, medical

Meniscus

A locked knee in an adolescent boy: resolving meniscal pathology in young athletes, Aug, p 43-47, CR

Metabolic syndromes

Exertional rhabdomyolysis: early recognition is key, Apr, p 15-20, RV

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Metatarsal: see Foot

Molluscum

Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV

Mortality: see Fatality

Mouth

Emergency treatment of dentoalveolar trauma: essential tips for treating active patients, Sep, p 23-29, RV

Steps to take for dental injuries, Sep, p 35-36, PA

MRSA: see Staphylococci

Muscle cramps: see Cramps

Musculoskeletal knowledge

Musculoskeletal curricula in medical education: filling in the missing pieces, Nov, p 42-45, 48, CM

Myotonia

Myotonia congenita in a young active man: symptoms and physique tip the diagnosis, Jul, p 18-21, CR

Nail: see Foot

Nerve injury: see Neuropathy

Neurologic condition

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Neuropathy

Bilateral musculoskeletal nerve palsy from strength training, Mar, p 18-20, CR

Complex regional pain syndrome: redefining reflex sympathetic dystrophy and causalgia, May, p 18-25, RV

Neuropsychological testing

New recommendations for concussion management, Dec, p 12-14, NB

Nonprescription medication: see Drugs, Drug testing, Ergogenic drugs

Nonsteroidal anti-inflammatory drug

Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12, NB

Nutrition

Dietary guidelines for water and electrolytes: what role for thirst?, Apr, p 12, 41, NB

The South Beach diet: weighing the pros and cons, Jan, p 9-10, NB

Obesity: see also Weight control

Getting tough with metabolic syndrome, Jan, p 24i-vii, GF

Survey suggests a decline in obesity counseling: physicians analyze reasons, Jun, p 18-20, 40, NB

Older patients

Intra-articular hyaluronic acid treatment for golfer's toe: keeping older golfers on course, Jul, p 41-45, R

Olecranon process: see Elbow

Olympics

Medical team heads to Athens, Aug, p 16-17, NB

Olympic preview: an update on drug testing, Aug, p 15-16, NB

Test of medal: let's focus on the many bright Olympic moments, Aug, p 2, EN

Onychomycosis

Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV

Orthopedics

Sports medicine moves toward specialty status: a new subspecialty for orthopedic surgery, Feb, p 10-14, NB

Orthoses

Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV

Osteoarthritis: see Arthritis

Osteoporosis

Bone mineral density in postmenopausal women: does exercise training make a difference?, Feb, p 18-24, R

Otitis externa

Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV

Ottawa knee rule

The Ottawa knee rule: avoiding unnecessary radiographs in sports, May, p 26-32, RV

Overuse injury

Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV

Pain: see also Rehabilitation, anatomic site

An unusual cause of medial arm pain, Jan, p 32-34, CQ; (letter) Apr, p 4

Complex regional pain syndrome: redefining reflex sympathetic dystrophy and causalgia, May, p 18-25, RV

Hyperpronation and foot pain: steps toward pain-free feet, Aug, p 19-26, RV

Maker withdraws Vioxx: sports medicine perspectives, Nov, p 9-12, NB

Myotonia congenita in a young active man: symptoms and physique tip the diagnosis, Jul, p 18-21, CR

Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV

Posterior knee pain and its causes: a clinician's guide to expediting diagnosis, Mar, p 23-30, RV

Shoulder pain and weakness, Nov, p 19-23, CQ

Symptomatic snapping hip: targeted treatment for maximum pain relief, Jan, p 25-31, RV

Wrist pain after a fall, Sep, p 39-42, CQ

Paintball

Paintball popularity explodes: targeting injury and fitness elements, Mar, p 11-15, NB

Paralympics

The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV

Parasite

Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV

Patella

Patellar tendinosis: acute patellar tendon rupture and jumper's knee, May, p 41-45, CR

Patellofemoral pain

Coping with patellofemoral syndrome, Jul, p 30-31, PA

Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV

Patellofemoral syndrome

Coping with patellofemoral syndrome, Jul, p 30-31, PA

Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV

Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV

Pediculosis

Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV

Personality: see Psychological issues

Physician education

Musculoskeletal curricula in medical education: filling in the missing pieces, Nov,

p 42-45, 48, CM

Sports medicine moves toward specialty status: a new subspecialty for orthopedic surgery, Feb, p 10-14, NB

Why settle for baseline health and fitness?, Dec, p 2, EN

Physis: see Adolescents, anatomic site

Pitted keratolysis

Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV

Plantar fasciitis

Hyperpronation and foot pain: steps toward pain-free feet, Aug, p 19-26, RV

Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV

Poison ivy: see Dermatitis

Popliteal artery entrapment

Posterior knee pain and its causes: a clinician's guide to expediting diagnosis, Mar, p 23-30, RV

Preparticipation exam

Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV

Patient care is more than skin deep: medical coverage from the PPE to HPV, May, p 2, EN

Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV

The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV

Prescription medication: see Drugs

Prevention: see also Injury prevention

Prevention vs iatrogenic harm, Oct, p 1, EN

Pruritus

Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV

Pseudoephedrine

Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R

Psoriasis

Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV

Psychological issues

Pairing personality with activity: new tools for inspiring active lifestyles, Dec, p 17-24, RV

Radiology: see Diagnostic imaging

Rash: see Dermatitis, Skin conditions

Raynaud's phenomenon/disease

Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec, p 26-32, RV

Reflex sympathetic dystrophy: see Complex regional pain syndrome

Rehabilitation

Complex regional pain syndrome: redefining reflex sympathetic dystrophy and causalgia, May, p 18-25, RV

Coping with patellofemoral syndrome, Jul,

continued

p 30-31, PA
 High ankle sprains: minimizing the frustration of a prolonged recovery, Dec, p 39-43, RV
 Knee pain and bicycling: fitting concepts for clinicians, Apr, p 23-30, RV
 Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV
 Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV
Return to play
 Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec, p 26-32, RV
 Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV
 Determining clearance during the preparticipation evaluation, Nov, p 29-41, RV
 Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV
 Herpes and tinea in wrestling: managing outbreaks, knowing when to disqualify, Oct, p 34-41, RV
 High ankle sprains: minimizing the frustration of a prolonged recovery, Dec, p 39-43, RV
 New recommendations for concussion management, Dec, p 12-14, NB
 Patellofemoral syndrome: diagnostic pointers and individualized treatment, Jul, p 22-29, RV
 The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV
 Treating and avoiding herpes and tinea infections in contact sports, Oct, p 43-44, PA
 Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV
Rhabdomyolysis
 Exertional rhabdomyolysis: early recognition is key, Apr, p 15-20, RV
Rofecoxib: see COX-2 inhibitors
Running
 The risk of death in running road races: does race length matter?, Apr, p 33-40, R

Scabies
 Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV
Screening: see Preparticipation exam
Shock-wave therapy
 Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV
Shoulder
 Shoulder pain and weakness, Nov, p 19-23, CO
 Steps to take for clavicle fractures, Jan, p 45-46, PA
Skin conditions
 Athletic skin injuries: combating pressure and friction, May, p 33-40, RV
 Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec,

p 26-32, RV
 Common bacterial dermatoses: protecting competitive athletes, Jun, p 33-39, RV
 Fungal infections and parasitic infestations in sports: expedient identification and treatment, Oct, p 23-33, RV
 Herpes and tinea in wrestling: managing outbreaks, knowing when to disqualify, Oct, p 34-41, RV
 Identifying and controlling metabolic skin disorders: eczema, psoriasis, and exercise-induced urticaria, Aug, p 29-40, RV
 MRSA infections: physicians expect to see more cases in athletes, Oct, p 12-17, NB
 Patient care is more than skin deep: medical coverage from the PPE to HPV, May, p 2, EN
 Rash after ACL reconstruction: asking the right questions, Oct, p 45-48, CO
 Treating and avoiding herpes and tinea infections in contact sports, Oct, p 43-44, PA
 Viral skin infections: preventing outbreaks in sports settings, Jul, p 33-38, RV
Snapping hip: see Hip
South Beach diet: see Weight control
Special Olympics
 The preparticipation examination for the athlete with special needs, Sep, p 13-19, 42, RV
Splint
 Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV
Sports drinks
 Dietary guidelines for water and electrolytes: what role for thirst?, Apr, p 12, 41, NB
Sports medicine
 Practically packed with practical practice information, Jan, p 3, EN
 Prevention for all: applying our high-tech treatment know-how, Jun, p 1, EN
 Prevention vs iatrogenic harm, Oct, p 1, EN
 Sports medicine moves toward specialty status: a new subspecialty for orthopedic surgery, Feb, p 10-14, NB
Sportsmanship
 Test of medal: let's focus on the many bright Olympic moments, Aug, p 2, EN
Sprain
 High ankle sprains: minimizing the frustration of a prolonged recovery, Dec, p 39-43, RV
Staffing: see Supervision, medical
Staphylococci
 MRSA infections: physicians expect to see more cases in athletes, Oct, p 12-17, NB
Stimulant
 Ephedrine, pseudoephedrine, and amphetamine prevalence in college hockey players: most report performance-enhancing use, Sep, p 30-34, R
Strength training
 Bilateral musculocutaneous nerve palsy

from strength training, Mar, p 18-20, CR
Stress fracture
 Ganglion cyst and olecranon physis nonunion in a baseball pitcher: unique treatment after conservative therapy failure, Jun, p 41-44, CR
Stretching
 Plantar fasciitis: current concepts to expedite healing, Nov, p 24-28, RV
Subscapularis
 Shoulder pain and weakness, Nov, p 19-23, CO
Sudden death: see also Fatality
 Heatstroke fatalities fan discussion: two deaths in high school football, Sep, p 8-10, NB
 Preparticipation cardiovascular screening of young athletes: an epidemiologic perspective, Jun, p 23-30, RV
 The risk of death in running road races: does race length matter?, Apr, p 33-40, R
Sun damage
 Cold, wind, and sun exposure: managing—and preventing—skin damage, Dec, p 26-32, RV
Supervision, medical
 Medical supervision of high school football in Chicago: does inadequate staffing compromise healthcare?, Feb, p 37-40, R
Supplements: see Ergogenic drugs, Ergogenic nutrition, Herbs
Supracondylar process: see Elbow
Sweat
 Dietary guidelines for water and electrolytes: what role for thirst?, Apr, p 12, 41, NB
Syndesmosis
 High ankle sprains: minimizing the frustration of a prolonged recovery, Dec, p 39-43, RV

Team physician
 Medical team heads to Athens, Aug, p 16-17, NB
Technology
 Prevention for all: applying our high-tech treatment know-how, Jun, p 1, EN
Teeth: see Mouth
Tendinosis
 Patellar tendinosis: acute patellar tendon rupture and jumper's knee, May, p 41-45, CR
